M'ALISTER'S ALL-HEALING OINTMENT.
THE preceding figure is given to represent the INSENSIBLE PERSPARATION. It is the great Evacuation of the human system. It will be noticed that a thick cloudy mist issues from all parts of the surface, which indicates that this perspiration flows uninterrupted, when we are healthy, but ceases when we are sick. Life cannot be sustained without it. It is thrown off from the blood and other juices of the body, and disposes by this means, of nearly all the impurities within us. The language of Scripture is, "IN THE BLOOD IS THE LIFE." If it ever becomes impure, it may be traced directly to the stoppage of the Inseparable Perspiration. Thus we see, all that is necessary when the blood is stagnant, or infected, is to open the pores, and it relieves itself from all impurity INSTANTLY. Its own heat and vitality are sufficient, without one particle of medicine, to check, to open the pores upon the surface. Thus we see the folly of taking so much internal remedies. All practitioners, however, direct their efforts to restore the Inseparable Perspiration. The Thompsonian, for instance, STRAINS the Inseparable perspiration in wet blankets, the Homoeopathist deals out infinitesimals, the Phlogopathist bleeds and doses with mercury, and the blustering Quack gorges us with pills, pills, pills.
To give some idea of the amount of the Inseparable Perspiration, we will state that the learned Dr. Levenhock ascertained that five-eighths of all we receive into the stomach, passed off by this means. In other words, if we eat and drink eight pounds per day, we evacuate five pounds of it by the Inseparable Perspiration. This is one eighth more than the used up particles of the blood, and other juices giving place to the new and fresh nourishment. It is therefore, to retain in the system five-eighths of all the vitriol matter that nature demands should leave the body.
By a sudden transition from heat to cold, the pores are stopped, the perspiration ceases, and disease begins at once to develop itself. Hence, a stoppage of this flow of the juices, originates so many complaints, such as colds, coughs, and consumption. Nine-tenths of the world die from diseases induced by a stoppage of the Inseparable Perspiration.
Let me ask, now, every candid mind, what course seems the most reasonable to pursue, to untie the pores, when they are closed, and give place to the perspiration? Or would you apply something that would do this upon the surface, where the clogging actually is, and yet I know of no physician who makes any such application to the surface, under such circumstances. I present to physicians, and all others, M'ALISTER'S ALL-HEALING OINTMENT, or the WORLD'S SALVE. It is a OIL MEK to restore perspiration on the feet, on the head, around old sores, upon the chest, in short upon any part of the body, whether diseased slightly or severely. It has power to cause all morbid humors, such as scrofula, skin diseases, poisonous wounds, to discharge their putrid matter, then heals them.
It is a Remedy for the cure of the whole catalogue of cutaneous disorders, and restores the entire circle of its healthy functions.
I have used it for the last fourteen years for all diseases of the chest, consumption, liver, involving the utmost danger and responsibility, and I declare before Heaven and man, that not in one single case has it failed to benefit, when the patient was within the reach of mortal means.
I have had physicians, learned in the profession; I have had ministers of the Gospel, Judges on the bench, Aldermen and Lawyers, gentlemen of the highest order and MULTITUDES of the POOR, use it in every variety of way, and there has been but one voice—united, universal, unanimous, saying—M'Alister, your Ointment is GOOD!!
HEADACHE.
The Salve has cured persons of the Headache of 12 years standing, and who had regularly every week, so that vomiting often took place.
Deafness and Ear Ache are helped with like success.
OLD SORES.
These same sores are all owing to the impurities of the system, as before they cannot pass off through the natural channels of the Inseparable Perspiration. If such sores are healed up, the impurities must have some other outlet, or it will continue to exist. This Salve will always provide for such emergencies.
RHEUMATISM.
It removes almost immediately the inflammation and swelling, when the pain is confined to the joints.
FEVERS.
In all cases of fever, the difficulty lies in the pores being locked up, so that the heat and perspiration cannot get off. The heat is confined to the system, and the patient is in all cases so of fever almost as if only the skin and bring forth the perspiration.
